

NSWA
NORTH SASKATCHEWAN
WATERSHED ALLIANCE

ANNUAL REPORT 2020-2021

OUR APPRECIATION

We are grateful to the many supporters of the North Saskatchewan Watershed Alliance (NSWA). We would not be able to facilitate partnerships, complete studies or share knowledge in our watershed without the time and resources provided by our contributors.

We acknowledge the **Government of Alberta** for providing a multi-year operational grant and important contributions from **EPCOR** and many **municipalities** in our watershed. Our partners contributed \$715,000 of financial support and over \$445,000 of in-kind support to NSWA in 2020-2021.

MESSAGE FROM THE EXECUTIVE DIRECTOR

"It is not the strongest that thrives but the one most adaptable to change".

One of my favourite ecological quotes was the theme for the last year for many of us. We all had to adapt to the changes that came with COVID including the NSWA. From working remotely to hosting our 2020 AGM online for the first time, NSWA continued to thrive and move our vision forward. Some highlights of the last year include:

- Approved updated [NSWA Society Bylaws](#) which now provide more opportunities for a diversity of stakeholders to be represented on the Board.
- Hosted new online speaker series: '[Knowledge in Know-vember](#)' in 2020 and '[Watershed Wednesdays](#)' in 2021.
- Are finalists in two categories at the 2021 Alberta Emerald Awards for the [Vermilion River Watershed Restoration and Enhancement Project](#) and the [WaterSHED North Saskatchewan River Water Quality Monitoring Project](#).

A special thank you to all our stakeholders, key partners, subwatershed alliances, board members and funders for helping NSWA adapt and thrive for another year!

Leah Kongsrude, Executive Director

NSWA BOARD OF DIRECTORS

The NSWA is a multi-stakeholder watershed partnership incorporated as a non-profit society in 2000 and designated as a Water Planning and Advisory Council by the Government of Alberta in 2005.

The work of NSWA is guided by an [18 member multi-stakeholder Board](#) that provides strategic direction and advice to the organization to achieve its vision and mission. We appreciate our Board members ongoing dedication and support.

***Board Directors volunteered over 610 hours
for an in-kind contribution of over \$50,000
in 2020-2021***

A BRIEF HISTORY OF NSWA 2000 TO 2021

In the late 1990's, EPCOR, TransAlta, Trout Unlimited, Agriculture and Agrifood Canada and the City of Edmonton were all working on initiatives related to the health of the North Saskatchewan River. In 1997 they amalgamated to form the **North Saskatchewan Watershed Alliance**. In 2000 NSWA became a registered non-profit society.

The NSWA became the designated Watershed Planning and Advisory Council for the North Saskatchewan River (NSR) in 2005, two years after the Alberta [Water for Life Strategy](#) was adopted by the province.

The NSWA produced the [State of the Watershed](#) report in 2005 and the [Integrated Watershed Management Plan](#) in 2012. In total, NSWA has completed over 60 studies and published the *North Saskatchewan River Watershed Atlas* and the book *Living in the Shed*.

NSWA has provided a forum for sharing knowledge and collaborating on issues affecting the North Saskatchewan River watershed in Alberta for over 20 years.

NSWA STRATEGIC PLAN 2019-2021

The NSWA Board has a 3-Year Strategic Plan that has **four goals to achieve the vision and mission** of the North Saskatchewan Watershed Alliance. The goals also align with the mandate of Watershed Planning and Advisory Councils set out by Alberta Environment and Parks.

STRATEGIC GOALS

Goal 1: *The NSWA supports Collaborative Watershed Planning*

Goal 2: *The NSWA provides Leadership in Watershed Management*

Goal 3: *The NSWA promotes Watershed Knowledge Sharing*

Goal 4: *The NSWA remains a Functional and Sustainable Organization*

The four goals are further defined by key objectives and actions which direct the work of the NSWA organization.

The Strategic Plan is reviewed annually by the NSWA Board to adjust for new opportunities and challenges and to assess the progress of the Plan.

In 2020, the Board approved three key short term strategic directions:

- *Concentrate Outreach and Collaboration on Key Watershed Stakeholders*
- *Focus Efforts and Resources on Subwatershed groups*
- *Identify ways to Measure the Success of the NSWA*

Collaborative partnerships are the core to successful watershed planning for the NSWA. Our strong relationships with **government agencies, municipalities, industry, non-governmental organizations** and **watershed stewardship groups** provide us with the ability to align our work with our key stakeholder's watershed issues and projects.

HEADWATERS ALLIANCE

The **Headwaters Alliance** is a municipally-led watershed stewardship group that works in partnership with the North Saskatchewan Watershed Alliance (NSWA). The Headwaters Alliance was formed in 2014 and is guided by a Steering Committee of elected officials and a Technical Advisory Committee of technical staff and volunteers.

In 2020, the Headwaters Alliance created a shared vision for the future, a set of common principles and their strategic plan for the next three years.

Strategic Goals of the Headwaters Alliance

RIPARIAN HEALTH ACTION PLAN (RHAP)

The RHAP continues to be the top priority for the Headwaters Alliance. The three phases of the RHAP project include:

Phase 1: Assess the overall **condition of riparian health** in the Modeste and Strawberry and subwatersheds - now complete.

Phase 2: Develop a **Riparian Health Strategic Plan** which will set objectives and actions for conserving and restoring priority riparian areas.

Phase 3: Development of the **Riparian Web-portal** which will provide riparian condition data as well as resources and tools for our stakeholders. The first “train-the-trainer session”, ensuring that all the members of the Headwaters Alliance are trained as web-portal ambassadors was held in February 2021.

Over 6,000 kilometers of river, creek and lake shorelines were assessed for riparian intactness in the Modeste, Strawberry and Sturgeon subwatersheds.

NATURAL INFRASTRUCTURE PROJECT

The Headwaters Alliance continues to be a partners in the **Modeste Natural Infrastructure Project** along with:

- *ALUS Canada*
- *Innotech Alberta*
- *Parkland County*
- *University of Guelph*

In February 2020, members of the Technical Advisory Committee were asked to participate in a stakeholder session, where municipalities identified opportunities to incorporate natural assets into municipal financial management systems.

Ongoing research includes creating a natural assets framework document, and assessing the benefits of retaining natural assets using a modelling program develops by the University of Guelph (IMWEBS).

VERMILION RIVER WATERSHED ALLIANCE

VRWA ACTIVITIES

The focus of the VRWA for this year was to work on communication, education, and strategy action items and to complete as much on-the-ground work as possible, while keeping landowners, staff, and the community safe.

EDUCATION and OUTREACH

A celebration of the 38 [VRWA Restoration and Enhancement Projects](#) completed between 2016-2019 were highlighted in a project summary booklet and a [Stories of Stewardship](#) online GIS Story Map.

The VRWA also shared information on their website through [monthly blog posts](#). Topics included:

- Speaking of health... *Vermilion River Aquatic Ecosystem Health Assessment*
- Buffering our impact: *How Eco-buffers can help reduce our impact on the river and provide ecosystem services*
- "Do Fence Me In!" *Fencing with water and wildlife in mind*
- *Living with Beavers: How to co-exist with nature's Eco Engineer*
- *Watershed Resilience: what strategies work best?*
- *Morecambe Structure and the Two Hills Floodplain*
- *Invasive vs. Native Plants: Knowing & Growing Your Riparian Area*
- Graphic Summary - *Vermilion River Water Quality Study*
- Partner Series: Getting to Know Cows and Fish's Riparian Specialist, *Tonya Lwiwski*
- Partner Series: Getting to Know *Chris Elder*, Coordinator for ALUS Canada – Vermilion River

Rebekah Adams of AWES (right), Terry Stefiuk of Town of Two Hills (left) and other town and County staff laying the mulch blanket for the Eco-Buffer.

RESTORATION and ENHANCEMENT

In June 2020, VRWA partnered with the [Alberta Woodlot Extension Society \(AWES\)](#), the Town of Two Hills, and the County of Two Hills to plant an Eco-Buffer demonstration site at Geleta Park in Two Hills, right along the Vermilion River.

In partnership with [Cows and Fish](#), VRWA assessed the riparian health of seven landowner projects that had been completed in 2016 or 2017 (now 3-4 years post-completion).

3 years

30+ landowners

20 km riparian areas

150+ hectares

STURGEON RIVER WATERSHED ALLIANCE

The Sturgeon River Watershed Alliance (**SRWA**) includes a Steering Committee of elected officials and a Technical Advisory Committee of municipal staff, non-governmental organizations and technical experts.

WATERSHED MANAGEMENT PLAN

The ***Sturgeon River Watershed Management Plan*** was completed in 2020 and endorsed by the 12 participating municipalities of the SRWA. The watershed management plan includes **six outcomes**:

1. **Policies and Plans** are well-informed and align to support a healthy watershed.
2. All residents have access to **safe, secure drinking water** supplies, whether they are on public or private systems or draw from surface or groundwater.
3. **Aquatic Ecosystems**, including our rivers, lakes, wetlands and other water bodies, are healthy.
4. The importance of water quantity is recognized and **reliable, quality water supplies** are available for people, livestock and a sustainable economy.
5. **Wise land use** ensures the cumulative effects of growth and development are mitigated, the land is resilient to climate change and individuals and communities are well prepared for flood and drought events.
6. **Residents and stakeholders** support the Sturgeon River Watershed Management Plan and are willing to participate in local and regional initiatives to improve watershed health.

The SRWA received a \$200,000 Alberta Community Partnership Grant for implementation of the Watershed Management Plan.

SRWA ACTION ITEMS 2020-2023

The SRWA will be focusing on several key action items for the next three years:

- **Riparian Health Strategy** using riparian intactness data from ***Riparian Assessment*** data
- **Wetland Strategy** using provincial and SRWA resources
- **Planning Alignment** for key areas identified by the Technical Advisory Committee such as Environmental Reserve, riparian and wetland conservation and environmental sensitive/risk areas.
- **Planning Overlay Maps** such as flood and groundwater hazard areas and riparian setback
- **Water Quality Monitoring Program**
- **Communications** such as educational forums, SRWA webpage and promotional materials.

LAKE STEWARDSHIP GROUPS

The important partnerships the NSWA has with Watershed Stewardship Groups under the *Water for Life Strategy* is reflected in our work with many lake groups.

LAKE MANAGEMENT STUDIES

NSWA along with many partners finalized the development of the [Wabamun Lake Watershed Management Plan](#) with a Steering Committee consisting of:

- Local Lake Stewardship groups
- Municipalities
- NSWA
- Alberta Environment and Parks

More information can be found on the [Wabamun Watershed Management Council](#) website.

LAKE STEWARDSHIP RESOURCES

NSWA works with Alberta Environment and Parks, ALMS and the Land Stewardship Centre to share lake stewardship information and support.

NSWA has also developed lake watershed report summaries for local watershed stewardship groups to use for their communications and education programs.

NSWA staff members and summer students visited 18 lakes in the summer of 2020, taking water and aquatic plant samples to support ALMS projects

There are over 680 named lakes in the NSR Watershed

GOAL 2: **LEADERSHIP IN WATERSHED MANAGEMENT**

The NSWA reviews and prioritizes watershed management projects to maximize partnership opportunities and use of resources. In addition to the three subwatershed Alliances, this includes providing advice on Government of Alberta policy, framework and guidelines projects.

NORTH SASKATCHEWAN RIVER WATERSHED MONITORING PROGRAM

The [WaterSHED Monitoring Program](#) is a unique partnership between:

- Alberta Environment and Parks
- EPCOR
- North Saskatchewan Watershed Alliance
- City of Edmonton

By combining and coordinating resources this collaborative partnership has created the North Saskatchewan River's most comprehensive river monitoring program.

The first [Technical Progress Report](#) for the program was published in 2020. The [WaterSHED North Saskatchewan River Water Quality Monitoring Project](#) is a finalist in the Alberta Emerald Awards.

Check out the [DAILY PHOTOS](#) from the 19 WaterSHED water quality monitoring stations .

INDUSTRIAL HEARTLAND/CAPITAL REGION WATER QUALITY MANAGEMENT FRAMEWORK

NSWA participates in Alberta Environment and Parks Implementation Advisory Committee for the [Water Quality Management Framework](#) for the Industrial Heartland and Capital Region.

The Water Management Framework for the Industrial Heartland and Capital Region presents a **collaborative, cumulative effects management approach** to protect the reach of the North Saskatchewan River, from Devon to Pakan, which is directly impacted by municipal and industrial effluent discharge.

The Framework has been under development since 2007 and the will be added into the provincial [North Saskatchewan Regional Plan](#).

NORTH SASKATCHEWAN EXPANDED RIPARIAN ASSESSMENT PROJECT

Between 2016-2018, a **new riparian assessment method**, piloted in the Modeste, Strawberry and Sturgeon subwatersheds, provided a detailed review of over *6,000 kilometers* of shorelines. This assessment provides a high level overview of the intactness and pressure on riparian systems for large areas.

In 2020 the NSWA received a \$500,000 grant from the Canadian Agricultural Partnership program to expand the riparian assessment of the watershed into an **additional five subwatersheds** which will add another *11,300 kilometers* to the total areas assessed:

- *Beaverhill*
- *White Earth*
- *Vermilion*
- *Frog*
- *Monnery*

Over 17,000 kilometers of shoreline in 8 subwatersheds will be assessed for riparian intactness by 2021

RIPARIAN WEB PORTAL

The riparian intactness data will be shared through a publicly accessible Riparian Web Portal. The Web Portal will also contain resources for different landowners about why riparian areas are important and who they can contact for local stewardship support. In February 2021, key stakeholders were invited to training sessions for the Web-portal - more sessions to come.

Riparian intactness data will be available from the North Saskatchewan watershed as well as four other Alberta watersheds:

- Athabasca
- Battle
- Beaver
- Red Deer

The NSWA has a [RESOURCES](#) web page dedicated to sharing not only over 60 [technical reports and management plans](#) but you can also find:

- Presentations from our [Educational Forums](#) and Annual General Meetings
- Past [Newsletters](#)
- Maps including the 62 page [NSWA Atlas](#)
- [Discovers page](#) which includes [watershed educational resources](#)

The [North Saskatchewan River Guide](#) (2002) is one of NSWA's oldest publications

GOAL 3: WATERSHED KNOWLEDGE SHARING

The NSWA is a key resource for watershed information on the North Saskatchewan River watershed and focuses its communications efforts on strategic issues with its key stakeholders. We align and compliment the communications efforts of Alberta Environment and Parks, and other watershed organizations to reinforce watershed knowledge and stewardship messages.

NSWA WEBSITE

The NSWA website averages 800 visits per month

MONTHLY NEWSLETTERS

Our **newsletters** keep over 900 **subscribers** informed of watershed news and upcoming events.

2021 NSWA CALENDAR

NSWA published a 2021 calendar with **watershed photos and information**, and distributed it to municipal leaders, MLAs and other partners in the watershed.

SOCIAL MEDIA

Twitter: 2674 followers
Facebook: 921 followers
Linked In: 610 connections
Instagram: 392 followers

2020 COMMUNICATIONS SURVEY

NSWA received **high ratings on a satisfaction survey** with our membership on our communications (website, newsletters, social media, educational forums).

The feedback from the survey was used to update the **NSWA Communications Plan** with the Board Communication and Engagement Committee.

EDUCATIONAL FORUMS

In 2020-2021, NSWA transitioned to online educational forums due to COVID:

- **Knowledge in November** webinar series - four Wednesdays in November
- **Watershed Wednesdays** - a series of webinars - February and March 2021

Over 1100 people have attended NSWA Forums since 2013

NSWA YouTube Channel

You can find recordings of our online forums and our 20th Anniversary video on our new [YouTube Channel](#).

WATERSHED EVENTS

In 2020-2021, many of NSWA's usual events were postponed due to COVID. We were able to adapt some of our plans to transition to online formats.

As well, with the help of two summer students, Rachel and Jillian, NSWA visited Farmers Markets and helped some Watershed Stewardship Groups in distributing pamphlets.

They also assisted the Alberta Lake Management Society (ALMS) in some water sampling work in the watershed.

Farmer's Market -NSWA Outreach Tent

ALBERTA WATERSHED VIDEO SERIES

NSWA received a multi-year \$75,000 Community Investment (CARE) grant from [Plains Midstream Canada](#) to create a series of five videos on watershed planning in Alberta. The project is a collaborative effort including:

- 11 Watershed Planning and Advisory Councils
- Alberta Environment and Parks
- Alberta Lake Management Society
- Alberta Council for Environmental Education

GOAL 4: FUNCTIONAL AND SUSTAINABLE ORGANIZATION

The NSWA is a registered non-profit society guided by an 18-member multi-stakeholder board and currently has five full time staff. We rely on funding from Alberta Environment and Parks, EPCOR and municipal contributions to fund our core operations. Watershed management specific project work is funded through separate federal and provincial grants, and municipal and watershed stewardship group contributions.

BOARD GOVERNANCE

The Board continued to work on key strategic directions of the organization through the work of five standing committees:

- *Executive*
- *Communications and Engagement*
- *Finance*
- *Governance*
- *Strategic Planning and Priorities*

A major accomplishment for the Board was the in depth review and rewrite of the [NSWA Bylaws](#) which were last updated in 2009. This included an in depth review of the sectors represented on the board. The new Bylaws were approved at the June 2020 AGM, and accepted by Service Alberta in the fall.

OPERATIONAL FUNDING

The NSWA receives **core funding** from:

- *An operating grant from the Government of Alberta*
- *A contribution from EPCOR Water Services Canada*
- *Municipal contributions equivalent to \$0.50 per capita*

For every \$1.00 NSWA receives in operational funding we have generated over \$3.00 in grant funding.

FUNDING SOURCES

The NSWA applies for grants from **Federal and Provincial government programs** for watershed project specific work such as technical studies and on-the-ground restoration projects. Over **\$3.0 million** worth of grants have been awarded to the NSWA in the last five years.

You can find a full copy of the NSWA 2020-2021 Audited Financial Statement on our website under [Our Society](#)

OUR MISSION

To protect and improve water quality, water quantity (instream flow) and the health of our watershed by:

- *Seeking, developing and sharing knowledge;*
- *Facilitating partnerships and collaborative planning; and,*
- *Working in an adaptive management process.*

OUR VISION

People working together for a healthy and functioning North Saskatchewan River watershed – today and tomorrow.
