

## REGIONAL LAKE STEWARDSHIP PROJECT

**Lakeshore Restoration Project  
Application Form**

NSWA is seeking applicants for lakeshore restoration projects within the North Saskatchewan Watershed. Depending on the site the restoration planting will include native flowering plants, shrubs, and trees. Part of the implementation includes a site assessment and a planting plan. These sites will become educational demonstration sites for the community to learn about natural lakeshores. Therefore, the sites must be publicly accessible and will be monitored for improvements to ecosystem services such as biodiversity.

Application deadline is April 1<sup>st</sup>, 2023. Application and photos, if any, can be sent to [Kelsie.Norton@nswa.ab.ca](mailto:Kelsie.Norton@nswa.ab.ca). Applications not selected will be kept on file for an additional 3 years on the basis that new project funding could be made available.

**Applicant Contact Information**

Name:

Organization/Affiliation:

Position:

Contact phone number:

Contact email address:

Mailing Address:

**Project Site Information**

Google Maps Location:

Is this site accessible to the public? How so?

Describe why this site would be a good fit as a walkable demonstration project :

### Lake Information

Lake Name:

Stewardship group name:

Site size (m<sup>2</sup>):

Estimated # of users (summer):

Estimated # of users (winter):

Types of recreation at lake (summer):

Types of recreation at lake (winter):

Describe the lake watershed's land use/cover (agriculture, industry, residential etc.):

Common issues involving the lake:

Common issues at the shoreline site:

Does your lake community, municipality or associated group have any existing naturalization programs or projects?

### Project Support Information

Are there any existing collaboration opportunities to support this demonstration site? (e.g. Lake Stewardship Group, Indigenous Communities, Municipalities, etc.)

What in-kind support can be provided for this demonstration project (e.g. communications, planning, boots-on-the-ground) (ideal, but not required)?

What financial support can be provided for this demonstration site (ideal, but not required)?

Please include pictures and maps of shoreline site with completed application form.

Completed form + photos can be emailed to [Kelsie.Norton@nswa.ab.ca](mailto:Kelsie.Norton@nswa.ab.ca).
